Project

Kanban Board – Task Management Web Application

- Built a frontend Kanban board using HTML, CSS, and JavaScript to visualize task progress. Built features to add, edit, and delete tasks, ensuring dynamic task management. Designed and developed a Kanban Board application to manage tasks across stages such as To Do, In Progress, and Done.

Resume Builder Web App

- Developed a dynamic resume builder using HTML, CSS, and JavaScript with real-time preview functionality
- Implemented form-based input system to capture user details like education, skills, and experience
- Added feature to download resume as PDF and save data using LocalStorage
- Designed a responsive and user-friendly UI for better user experience

Skills

Programming Languages: JavaScript

Web Development: HTML, CSS, JavaScript, React.js, Tailwind CSS

Tools: Git, GitHub, ChatGPT, VS Code

Soft Skills: Communication, Teamwork, Problem-Solving

Experience

Frontend Developer-Intern

CodeCompiler

- Developed responsive and user-friendly web interfaces using React.js, HTML, CSS, and JavaScript
- Built reusable UI components for scalable frontend development
- Integrated REST APIs and managed dynamic data rendering
- Improved website responsiveness and cross-browser compatibility
- Collaborated with developers using Git/GitHub for version control
- Debugged and resolved frontend issues to enhance performance and user experience

Achievements

Achieved strong academic performance with a CGPA of 7.44 / 10 in Bachelor's studies. Demonstrated excellence in web development and coding through hands-on projects. Ranked school topper in 10th board examination with 92.3%.
